Forecast for Sunday 25 Apr 2021

Weather: A fine dry and sunny day for the vast majority, however a few isolated afternoon showers may appear. Good early evening brightness, then higher cloud spreading from the north towards midnight, but all should be dry.

Chance of cloud free mountain/hill tops above 800m: 95% plus.

Visibility: Mainly very good, falling moderate or poor in afternoon showers, and very poor in associated cloud as the odd patch lowers across the summits.

Met Office Aberdeen Meteorologist's View
Risk sunburn in exposure with strong and plentiful afternoon sunshine.

Forecast for Monday 26 Apr 2021
Weather: A change with cloud and bands of showery rain spreading from the northwest through the morning, with snow level lowering 800-1000m. Clearing to sunshine and scattered showers during the afternoon, with outbreaks tending to ease during the evening.

Maximum wind: West or southwest initially mean 25 mph with gusts 40 mph across most exposed ridges and summits, decreasing mean 15 mph from early evening.

Chance of cloud free mountain/hill tops above 800m: 80% becoming 40% during the late morning and early afternoon.

Visibility: Becoming moderate or poor in rain and showers, less in cloud. Bases becoming broken from 600-900m, during the late morning and early afternoon, otherwise scattered.

Temperature: **Glens:** Plus 1 Celsius increasing 15 Celsius during the afternoon
At 800m: Zero to plus 2 Celsius
Freezing level: Soon lowering 1000-1200m
